

# **Mission Statement and other Fine Print**

The Staunton River Watch, a non-profit 501(c)(3) organization was organized in 1994 in response to water quality issues between Leesville Lake and Kerr Reservoir. Its mission is to monitor events in the basin and through networking keep its members apprised of water quality issues and bring these events to the attention of those organizations best able to respond to them.

This web page is a work in progress by an amateur and will be modified continuously. Any input may be considered by the organization at: [info@StauntonRiverWatch.com](mailto:info@StauntonRiverWatch.com). This email address is monitored daily.
